(Autonomous)

Dundigal - 500 043, Hyderabad, Telangana

ANNEXURE-09

## INDUSTRY INSTITUTE INTERFACE COMMITTEE

The Industry–Institute Interface Committee (IIIC) is constituted to strengthen collaboration between the institution and industry for mutual benefit. It facilitates interaction with industries to bridge the gap between academic learning and practical applications. The committee promotes industry-oriented training programs, internships, industrial visits, and expert lectures for students. It encourages collaborative research, consultancy, and sponsored projects with industry partners. The committee also supports curriculum enrichment by incorporating industry inputs and emerging trends. It plays a key role in enhancing employability and skill development among students. Regular interactions and MoUs with industries are initiated to build long-term partnerships. The committee monitors and evaluates the outcomes of industry collaborations. Overall, it aims to create a strong linkage between academia and industry for holistic development.

### Objectives:

- To establish and strengthen collaboration between the institution and industry for mutual growth.
- To bridge the gap between academic learning and industry requirements through training, internships, and industrial visits.
- To promote industry-supported research, consultancy, and sponsored projects.
- To enhance student employability by facilitating skill development programs and expert interactions.
- To incorporate industry inputs for curriculum enrichment and adopt emerging technological trends.
