### ATTAINMENT OF COURSE OUTCOME – ACTION TAKEN REPORT

Name of the faculty:	<b>Mr. G Chandra Sekhar</b>	Department:	<b>IT</b>
Regulation:	<b>IARE - R16</b>	Batch:	<b>2017 - 2021</b>
Course Name:	<b>Software Engineering Laboratory</b>	Course Code:	<b>ACS107</b>
Semester:	<b>IV</b>	Target Value:	<b>60% (1.8)</b>

#### Attainment of COs:

Course Outcome		Overall attainment	Observation
CO1	Determine the problems occurred due to various software crisis..	2.3	Attainment target reached.
CO2	Illustrate the basic principles of architectural design process.	2.3	Attainment target reached.
CO3	Make use of the principle of design stating high cohesion and low coupling.	2.3	Attainment target reached.
CO4	Determine the concepts of software metrics used before software deployment.	2.3	Attainment target reached.
CO5	Compare the process of requirements development and requirements management.	2.3	Attainment target reached.
CO6	Choose the different categories of testing before deployment of software.	2.3	Attainment target reached.
