Contact Classes: Nil	Tutorial Classes: Nil	Practical Classes: 45				Total Classes:45		
OBJECTIVES: The course should enable the students to: I. Identify structural engineering problems reviewing available literature. II. Study different techniques used to analyze complex structural systems. III. Work on the solutions given and present solution by using his/her technique applying engineering principles.								
Guidelines to be followed Mini Project will have mid semester presentation and end semester presentation. Mid semesterpresentation will include identification of the problem based on the literature review on the topicreferring to latest literature available. End semester presentation should be done along with the report on identification of topic for thework and the methodology adopted involving scientific research, collection and analysis of data,determining solutions highlighting individuals' contribution. Continuous assessment of Mini Project at Mid Sem and End Sem will be monitored by theDepartmental committee.
