Abstract:
 ABSTRACT [610] My invented technology "IF-Pot " fish pots which provide fish to survive them for long time. The my invention is to increase survival level of fish in fish pots. This invention controlled and provide the good and required level of all things like 1. oxygen: 2. Change water indication and change: 3. Feed food indication and provide:4.Medicine for fish indication and provide. 5. Temp display. It will be helpful for fish to survive and get food when we out of town. And also see the all status in my mobile .

Complete Specification

Claims:WE CLAIMS

[600]

1. By upcoming technology we need fish pots which provide fish to survive them for long time. The my invention is to increase survival level of fish in fish pots. This invention controlled and provide the good and required level of all things like 1. oxygen: 2. Change water indication and change: 3. Feed food indication and provide:5.Medicine for fish indication and provide. It will be helpful for fish to survive and get food when we out of town
2. According to Claims 1# The invention is to provide the Level of oxygen: We can't get oxygen level in water , it decreases when water is polluted. We need some device which recognize level of oxygen in water. We get percentage of oxygen on the display. When level of oxygen is low, notification given to your phone level of oxygen is low. Then machine starts and level of oxygen will be increased. When level of oxygen is high , then we get notification, machine automatically stops. Fish need dissolved oxygen for breathing. We all know that they get oxygen through gills. Water has very tiny amount of dissolved oxygen.
3. According to Claims 1# The invention is to provide Level of polluted of water: Sometimes we forgot to change water, because of this water is polluted and this is harmful for health of fish. When water is polluted we get notification on mobile and it also shows on display about the level of polluted of water. The fish can survive level of pollution of water up to 8,000 times.
4. According to Claims 1# The invention is to provide Requirement of food: we give extra food for eating to fish. Sometime because of overeating they can die. Sometimes we give them food which harm them or affects to their health. If anyone don't know about which food fish want then it is so dangerous for fish. So we have to give them proper food on proper on time. If we get urgent work and we have to go out of town then we need someone who give food to fish on proper time

(i) Declaration by the Inventor:

(In case the applicant is an assignee: the inventor(s) may sign herein below or the applicant may upload the assignment or enclose the assignment with this application for patent or send the assignment by post/electronic transmission duly authenticated within the prescribed period).

We, the above named inventor are the true & first inventor for this invention and declare that the applicant herein is my assignee or legal representative:

NA

(ii) Declaration by the applicant/s in the convention country:

(In case the applicant in India is different than the applicant in the convention country: the applicant in the convention country may sign herein below or applicant in India may upload the assignment from the applicant in the convention country or enclose the said assignment with this application for patent or send the assignment by post/electronic transmission duly authenticated within the prescribed period)

I/ ~~We~~, the applicant(s) in the convention country declare that the applicant(s) herein is/ ~~are my/ our~~ assignee or legal representative. : **N.A.**

(iii) Declaration by the applicants:

We, the applicants hereby declare that: -

1. We are in possession of the above-mentioned invention.
2. The **Complete Specification** relating to the invention is filed with this application.
3. The invention as disclosed in the specification uses the biological material from India and the necessary permission from the competent authority shall be submitted by us before the grant of patent to us: **N.A.**
4. There is no lawful ground of objection to the grant of the patent to me/ us.
5. We are the assignees or legal representatives of true and first inventors:
6. The application or each of the applications, particulars of which are given in Para – 8 was the first application in convention country/ countries in respect of our invention: **N.A.**
7. We claim the priority from the above mentioned application filed in convention country/ countries and state that no application for protection in respect of the invention had been made in a convention country before that date by us or by any person from which we derive the title: **YES**

8. Our application in India is based on international application under Patent Cooperation Treaty (PCT) as mentioned in Para-9: **N.A.**
9. The application is divided out of our application particulars of which is given in Para-10 and prays that this application may be treated as deemed to have been filed on N.A. Under sec.16 of the Act: **N.A.**
10. The said invention is an improvement in or modification of the invention particulars of which are given in Para-11 :**N.A.**
