Invention Title	ANALYZING EMPLOYEE MOTIVATION AND THE WAY IT AFFECTS ORGANISATIONAL PRODUCTIVITY WITH BUSINESSES FROM THE PRIVAT PUBLIC SECTORS
Publication Number	22/2023
Publication Date	02/06/2023
Publication Type	INA
Application Number	202321030472
Application Filing Date	27/04/2023
Priority Number	
Priority Country	
Priority Date	
Field Of Invention	COMPUTER SCIENCE
Classification (IPC)	G06Q 100600, G06Q 101000, G06Q 300200, H04L 411200, H04W 881600

Inventor

Name	Address	Country
Dr. AFTAB ANWAR SHAIKH	Professor and Principal AKI's Poona College of Arts, Science and Commerce, Camp Pune Pin:411001 Maharashtra India	India
Dr.Smitha.V	Assistant Professor Loyola Academy, Alwal, Secunderabad Pin: 500 010 Telangana India	India
Dr. Jai Kumar Sharma	Professor PCJ School of Management, Maharaja Agrasen University, Baddi, Solan (HP) Pin: 174103 Himachal Pradesh India	India
Ramesh Prasad Pattnaik	Sr Program manager Bharati Vidyapeeth Institute Of Management and Entrepreneurship Development pune Pin: 411038 State: Maharashtra Country: India	India
Prof.Dr.Sunil Shete	H.O.D Commerce St.Vincent College of Commerce, Behind Mira Society , Off Shankar Seth Road , Pune Pin:411037 Maharashtra India	India
Dr.Franklin Salvi	H.O.D Cost and Works Accounting St.Vincent College of Commerce, Behind Mira Society , Off Shankar Seth Road , Pune Pin:411037 Maharashtra India	India
Ms. Neha Nigam	Assistant professor IIMT College of management Greater Noida Gautam Budh Nagar Pin:201306 Uttar Pradesh India	India
Dr. S. Antony Raj	Assistant Professor Department of Commerce SRM Institute of Science and Technology Pin:603203 Chennai Tamil Nadu India	India
Dr. Jyoti Samseriya (Pillay)	Assistant Professor G H Raisoni College of Commerce, Science and Technology, Nagpur, 345, Kingsway , Shradha House, Nagpur Pin:440001 Maharashtra India	India
Mr. Annam Karthik	Assistant Professor Institute of Aeronautical Engineering, Dundigal, Hyderabad Medchal Pin:500 043 Telangana India	India
Dr. K.Sivaperumal	Assistant Professor Faculty of Science and Humanities, SRM Institute Of Science and Technology SRM Nagar, Kattankulathur, Chennai Pin: 603203 TamilNadu India	India
Dr. Harikumar Pallathadka	Director and Professor Manipur International University, Ghari, Imphal, Imphal West, Imphal Pin: 795140 Manipur India	India

Abstract:

ANALYZING EMPLOYEE MOTIVATION AND THE WAY IT AFFECTS ORGANISATIONAL PRODUCTIVITY WITH BUSINESSES FROM THE PRIVATE AND PUBLIC SECTORS Abstra data environment, we develop personalized information of college libraries based on big data from three aspects: the overall architecture of the system model, the fu model of the system, and the design of system interface modules according to the design principles and requirements of the personalized information service systen university library Service system design. In terms of the functional design of the platform, the service platform is divided into four levels: accurate identification of use based on big data, personalized customized services based on artificial intelligence, academic research and discussion space based on integrated media, and fine-gra resource aggregation based on knowledge. On this basis, a centralized model of individualized services of university libraries including internal and external personne information resources, technology, services, processes, platforms, and environment has been constructed Arti?cial intelligence (AI) is one of the emerging trends and of computing in libraries. It involves programming computers to do things, which if done by humans, would be said to require intelligence. The ultimate promise of an intelligence in libraries is to develop computer systems or machines that think, behave, and in fact rival human intelligence, and this clearly has major implications on librarianship. The application of arti?cial intelligence in the library has become pervasive. They include expert systems for reference services, book reading and shelf-r robots, virtual reality for immersive learning among others. Although the incorporation of arti?cial intelligence in libraries can be perceived to alienate librarians from it will probably help libraries do more rather than taking over the jobs of librarians. It will enhance their services delivery. Arti?cial intelligence will greatly improve libr operations and services and will upgrade and heighten the relevance of libraries in an ever-changing digital society The primary objective of management should be t morale and work output by tying employee motivation to company objectives. This is an essential aspect of leadership. This is challenging because the varieties of jol are constantly changing. Numerous factors influence what individuals value and appreciate most in life. This study examines the connections between employee mot workplace productivity. The research examines how a variety of well-known incentive theories can be implemented to increase workplace productivity. According to tl of the study, employees' beliefs regarding what motivates them vary. Numerous theories on what motivates individuals, as well as their applications and consequenc been proposed and discussed in the literature. There were three research queries posed: How does one generate ideas? How can we motivate our employees to wor that our organisation is more productive as a whole? The study found that motivation can both increase and decrease the productivity of individuals at work. Perform improves when an employee's desires are satisfied by the incentive programme. However, the reward will be reduced if the employee's chosen incentive is insufficien their requirements. As a result, businesses are compelled to address the diverse needs of their employees in order to maintain employee engagement.

Complete Specification

Description:ANALYZING EMPLOYEE MOTIVATION AND THE WAY IT AFFECTS ORGANISATIONAL PRODUCTIVITY WITH BUSINESSES FROM THE PRIVATE AND PUBLIC SE Abstract:
In the big data environment, we develop personalized information of college
libraries based on big data from three aspects: the overall architecture of the system
model, the functional model of the system, and the design of system interface modules
according to the design principles and requirements of the personalized information
service system of the university library Service system design. In terms of the functional
design of the platform, the service platform is divided into four levels: accurate
identification of user needs based on big data, personalized customized services based
on artificial intelligence, academic research and discussion space based on integrated
media, and fine-grained subject resource aggregation based on knowledge. On this basis,
a centralized model of individualized services of university libraries including internal
and external personnel, information resources, technology, services, processes,
platforms, and environment has been constructed
Arti?cial intelligence (AI) is one of the emerging trends and applications of computing
