Invention Title	A COMPREHENSIVE LANGUAGE LEARNING SYSTEM: HARNESSING CONTEXTUAL FEEDBACK FOR IMPROVED PROFICIENCY
Publication Number	38/2024
Publication Date	20/09/2024
Publication Type	INA
Application Number	202441068918
Application Filing Date	11/09/2024
Priority Number	
Priority Country	
Priority Date	
Field Of Invention	ELECTRONICS
Classification (IPC)	H01L0029739000, A61P0007000000, C12R0001290000, C30B0029400000, G06F0009500000

Inventor

Name	Address	Country
Dr. Ram Chandra Kalluri	Chairperson, Department of English, Amrita Vishwa Vidyapeetham, Amaravati Campus, Guntur, Pin: 522503, Andhra Pradesh, India.	India
Dr. J. Amutha Monica	Assistant Professor, Department of English, Sathyabama Institute of Science and Technology Jeppair Nagar, Chennai, Pin: 600019, Tamilnadu, India.	India
Dr. Bellamkonda Krishna Chandra Keerthi	Associate Professor, Government City College (A), Hyderabad, Pin: 500002, Telangana, India.	India
Dr. Anitha Bolimela	Senior Assistant Professor, Madanapalle Institute of Technology & Science, Madanapalle, Annamayya, Pin: 517325, Andhra Pradesh, India.	India
Dr. Jyoti Sharma	Assistant Professor Hindi, Shri Ratanlal Kanwarlal Patni Girls College, Kishangarh, Ajmer, Pin: 305001, Rajasthan, India.	India
Dr. Koteshwar Ramesh Rakesh	Assistant Professor, CHRIST (Deemed to be University), Nandgram Rd, Marium Nagar, Sewa Nagar, Ghaziabad, Pin: 201003, Uttar Pradesh, India.	India
Dr. G. Chandra Sekhar	Assistant Professor, Computer Science and Engineering, Institute of Aeronautical Engineering, Dundigal, Hyderabad, Pin: 500043, Telangana, India.	India
Alisha. O	Assistant Professor, Department of English, The American College, Madurai, Pin: 625011, Tamilnadu, India.	India
Mr. Christian Rafael Quevedo Lezama	Professor in English, Universidad Nacional Mayor de San Marcos, Avenida Carlos Germán Amezaga 375, Cercado de Lima, Pin: 15037, Peru.	PERU
Mr. Sanjay Popat Shinde	Assistant Professor, MAEER's Saint Dnyaneshwar B.Ed.College, Alandi Devachi, Pune, Pin: 412105, Maharashtra, India.	India

Abstract:

The invention provides a comprehensive language learning system that harnesses contextual feedback to enhance language proficiency. The system features an inte interface, a contextual feedback module, an adaptive learning engine, and a data integration component. It processes user language inputs in real time, analyzing con providing personalized corrections and suggestions. The adaptive learning engine dynamically adjusts exercise difficulty based on individual performance and contex while the data integration component utilizes external data sources to generate relevant practice scenarios. This approach ensures a tailored, engaging, and effective experience, bridging the gap between theoretical knowledge and practical application.

Complete Specification

Description:The embodiments of the present invention generally relates to the field of language learning technologies and educational systems, specifically focusing systems that incorporate contextual feedback to enhance the proficiency and effectiveness of language acquisition. This invention aims to address the limitations o traditional language learning methods by integrating adaptive feedback mechanisms and contextual data to provide a more personalized and engaging learning exp
BACKGROUND OF THE INVENTION
The following description of related art is intended to provide background information pertaining to the field of the disclosure. This section may include certain asp the art that may be related to various features of the present disclosure. However, it should be appreciated that this section be used only to enhance the understan the reader with respect to the present disclosure, and not as admissions of prior art.

Traditional language learning methods often rely on static exercises and predefined content that do not adapt to the learner's progress or real-world context. Such may involve rote memorization and repetitive practice without considering the nuances of individual learning needs. Consequently, learners might find it challengin apply their knowledge in practical situations or may struggle with maintaining motivation and engagement.

Existing language learning systems frequently lack real-time feedback and fail to personalize the learning experience based on the learner's performance and conte systems may provide generic exercises and feedback that do not address the specific needs or proficiency level of the learner. This lack of adaptability can hinder th effectiveness of the learning process and slow down the learner's progress.
